# 5 MINUTES TO A GREENER HOME

## Take the My Utility Planner Challenge

This Earth Day, we're challenging every Beaches Energy customer to take the free online **My Utility Planner** audit. See your score, find new ways to save energy, and set yourself up for a greener (and more affordable) year.

### Here's how it works:

1. Click the audit link at [BeachesEnergy.com/MUP](https://BeachesEnergy.com/MUP)
2. Answer a few quick questions about your home
3. Get your custom report and energy-saving tips

Then, choose two of your favorite tips and implement them in your home. Share your score on our social media or save it and see if you can do even better next year!

## DON'T FALL FOR A FAKE CALL

Have you ever received a call demanding immediate payment or asking for sensitive information? It's likely a scam. These fake calls are getting more and more common, and it's important to know what to look for so you can protect yourself.

If someone ever calls claiming to work for Beaches Energy, remember:

We will never demand immediate payment over the phone

We will never ask you to pay in unusual ways, like gift cards or cash apps

We will always clearly identify ourselves and the reason for the call

If you ever take a call you think may be a scam, hang up and call our **Customer Care** team at **904-247-6241**.

## 2026 LINEMAN RODEO

2026 marked the 25<sup>th</sup> anniversary of the Florida Lineman Competition — an event that brings line workers together from across Florida to show off their skills and honor their hard work. While we didn't have any competitors in this year's event, we did have two judges.

Take a look at the photo for a 2025 throwback! Last year, we had six linemen compete to show their ability to quickly and accurately navigate mutual aid, lifesaving skills, and routine maintenance.

## ELECTRIC PRICE FOR 1,000 KILOWATT-HOURS

Rate Component	April	May
Residential Base Charge	\$4.50	\$4.50
